

Program Management

Liberty Healthcare develops and manages programs that delivery high-quality solutions for a range of difficult healthcare challenges.

Liberty Healthcare designs, implements, and manages treatment programs for people with mental illness, intellectual and developmental disabilities (I/DD), co-occurring disorders, long-term care needs, forensic and correctional populations. Our programs include management of short-term treatment facilities, acute care behavioral health units, correctional mental health programs, community crisis homes, and intensive case management and specialized supervision programs.

We have a strong reputation for creating and operating recovery-oriented, strengths-based programs that enable vulnerable and challenging populations reintegrate into the community with dignity, independence, responsibility, and improved outcomes.

"Liberty has a longstanding reputation of integrity, providing top-notch staff and consistently strong corporate support. They work very well in a 'blended' staff environment, essentially becoming part of the medical staff comprised of state-employed professionals, faculty, and contractors ... They are painstaking about their credentialing of the professionals they recruit and hire, as demonstrated by their Joint Commission certification ..."

Clinical Director
STATE PSYCHIATRIC CENTER

SOLUTIONS IN PRACTICE

24/7 clinical and direct care staffing for two short-term treatment facilities for Oklahomans with I/DD and mental illness.
